What is Cyber Crime?

Cyber crime is any illegal activity carried out using computers, networks, or the internet to steal data, money, or harm individuals or organizations.

What is Hacking?

Hacking is unauthorized access to a computer system or network to steal, alter, or destroy data.
Section: 66 IT Act
Punishment: Up to 3 years imprisonment or fine up to ₹5 lakh or both.

What is Phishing?

Phishing is a cyber attack where criminals trick users into revealing sensitive information like passwords or bank details by pretending to be a trusted source.
Section: 66D IT Act
Punishment: Up to 3 years imprisonment or fine up to ₹1 lakh or both.

What is Identity Theft?

Identity theft is the misuse of another person's digital identity, passwords, or signature for fraud.
Section: 66C IT Act
Punishment: Up to 3 years imprisonment and fine up to ₹1 lakh.

What is Malware?

Malware is malicious software designed to damage or gain unauthorized access to a computer system.
Section: 66 IT Act
Punishment: Up to 3 years imprisonment or fine up to ₹5 lakh.

What is a Virus?

A virus is a type of malware that spreads by attaching itself to files and corrupts systems.
Section: 66 IT Act

What is a Worm?

A worm is malware that spreads automatically across networks without user action.
Section: 66 IT Act

What is a Trojan Horse?

A trojan is malware disguised as legitimate software to trick users into installing it.
Section: 66 IT Act

What is Ransomware?

Ransomware is malware that encrypts files and demands money to restore access.
Section: 66 IT Act + IPC extortion laws
Punishment: Up to 3 years or more depending on damage.

What is Cyber Terrorism?

Cyber terrorism involves attacking computer systems to threaten national security or cause public fear.
Section: 66F IT Act
Punishment: Imprisonment for life.

What is Cyber Stalking?

Cyber stalking is online harassment or monitoring someone repeatedly using digital means.
Section: IPC 354D + IT Act provisions
Punishment: Imprisonment and fine.

What is Cyber Bullying?

Cyber bullying is harassing or threatening someone using online platforms or messages.

What is Email Spoofing?

Email spoofing is forging an email address to trick recipients into believing it is from a trusted source.
Section: 66D IT Act

What is SIM Swap Fraud?

SIM swap fraud occurs when criminals duplicate a victim's SIM card to access banking OTPs.
Section: 66C & 66D IT Act

What is UPI Fraud?

UPI fraud involves tricking users into sharing OTPs or approving fake payment requests.
Section: 66D IT Act + IPC 420

What is Online Banking Fraud?

Unauthorized access or tricking users to steal money from bank accounts online.
Section: 66C, 66D IT Act + IPC 420

What is Data Theft?

Data theft is unauthorized copying or stealing of confidential digital information.
Section: 43 & 66 IT Act

What is Web Defacement?

Web defacement is unauthorized modification of a website's content.
Section: 43 & 66 IT Act

What is Denial of Service (DoS) Attack?

A DoS attack floods a server with traffic to make it unavailable.
Section: 43 & 66 IT Act

What is Child Pornography Online?

Publishing or sharing sexually explicit content involving minors online.
Section: 67B IT Act
Punishment: Up to 7 years imprisonment + fine.

What is Publishing Obscene Content Online?

Sharing obscene material electronically.
Section: 67 IT Act
Punishment: Up to 3 years + fine ₹5 lakh.

What is Publishing Sexually Explicit Content?

Publishing sexually explicit acts online.
Section: 67A IT Act
Punishment: Up to 5 years + fine.

What is Cheating by Personation Online?

Pretending to be someone else online to commit fraud.
Section: 66D IT Act

What is Tampering with Computer Source Code?

Hiding or altering source code intentionally.
Section: 65 IT Act
Punishment: Up to 3 years or fine.

What is Breach of Confidentiality and Privacy?

Unauthorized disclosure of personal information accessed during official duties.
Section: 72 IT Act

What is Cyber Forensics?

Cyber forensics is the process of collecting and analyzing digital evidence for legal use.

What is Digital Signature Misuse?

Fraudulent use of someone else's digital signature.
Section: 66C IT Act

What is Password Theft?

Stealing login credentials to access accounts.
Section: 66C IT Act

What is Social Engineering?

Manipulating people into revealing confidential information.

What is OTP Fraud?

Tricking users into sharing One Time Passwords to steal money.
Section: 66D IT Act

What is Cyber Extortion?

Threatening to release data unless money is paid.
Section: IT Act + IPC extortion laws

What is Data Breach?

Unauthorized exposure of sensitive digital data.

What is Spyware?

Software that secretly monitors user activity.
Section: 66 IT Act

What is Adware?

Software that displays unwanted ads and may track users.

What is Botnet?

A network of infected computers controlled by attackers.

What is Brute Force Attack?

Trying many password combinations to break into an account.

What is Man-in-the-Middle Attack?

Intercepting communication between two parties secretly.

What is SQL Injection?

Inserting malicious SQL code into a database query.

What is Cross-Site Scripting (XSS)?

Injecting malicious scripts into websites viewed by others.

What is Cyber Law?

Cyber law refers to legal rules governing internet use, digital communication, and cyber crimes.

Someone creates a fake Facebook profile using another person's photos and name. What crime is this?

This is **Identity Theft**.
Section: 66C IT Act
Punishment: Up to 3 years imprisonment and fine up to ₹1 lakh.

A hacker breaks into a company server and deletes important files. What offence is committed?

This is **Hacking and Data Damage**.
Section: 43 & 66 IT Act
Punishment: Up to 3 years imprisonment or fine up to ₹5 lakh or both.

A fraudster calls pretending to be a bank officer and asks for OTP to steal money. What crime is this?

This is Phishing / Cheating by Personation.
Section: 66D IT Act
Punishment: Up to 3 years imprisonment and fine up to ₹1 lakh.

A person secretly records a private video and uploads it online. What law applies?

This is **Violation of Privacy and Publishing Obscene Content**.
Section: 66E & 67 IT Act
Punishment: Up to 3–5 years imprisonment and fine.

Someone sends threatening emails repeatedly to harass a person. What is this crime?

This is **Cyber Stalking / Online Harassment**.
Section: IPC 354D + IT Act provisions
Punishment: Imprisonment and fine.

A criminal installs spyware on a victim's laptop to monitor activity. What offence is this?

This is **Unauthorized Access and Data Theft**.
Section: 43 & 66 IT Act
Punishment: Up to 3 years or fine up to ₹5 lakh.

A website is hacked and its homepage replaced with a political message. What is this called?

This is **Website Defacement**.
Section: 43 & 66 IT Act

Someone shares child sexual content through WhatsApp. What law applies?

This is **Child Pornography**.
Section: 67B IT Act
Punishment: Up to 7 years imprisonment and heavy fine.

A person steals source code from their company before resigning. What crime is this?

This is **Theft of Confidential Data / Source Code Theft**.
Section: 43, 66 IT Act + Copyright Act

A scammer sends emails claiming lottery winnings and asks for processing fees. What offence?

This is **Online Fraud / Phishing**.
Section: 66D IT Act

Someone spreads a computer virus intentionally in a college lab network. What law applies?

This is **Introducing Malware/Virus**.
Section: 43 & 66 IT Act

A hacker locks hospital data and demands money to unlock it. What crime is this?

This is **Ransomware Attack**.
Section: 66 IT Act + IPC Extortion
Punishment: Imprisonment and fine, may increase based on damage.

A person alters another person's digital signature for fraud. What offence?

This is **Digital Signature Misuse**.
Section: 66C IT Act

Someone breaks into a government defense database. What serious crime is this?

This is **Cyber Terrorism**.
Section: 66F IT Act
Punishment: Imprisonment for life.

An employee leaks customers' private data online. What offence applies?

This is **Breach of Confidentiality and Privacy**.
Section: 72 IT Act

A fraudster clones a SIM card to access banking OTPs. What crime is this?

This is **SIM Swap Fraud / Identity Theft**.
Section: 66C & 66D IT Act

Someone sends obscene messages to a woman on Instagram. What law applies?

This is **Online Harassment / Obscene Content**.
Section: 67 IT Act + IPC provisions

A criminal uses a botnet to crash a company's website. What offence?

This is **Denial of Service (DoS) Attack**.
Section: 43 & 66 IT Act

A hacker intercepts communication between two companies secretly. What is this called?

This is a **Man-in-the-Middle Attack**.
Section: 43 & 66 IT Act

Someone installs a keylogger to capture passwords. What crime is committed?

This is **Password Theft / Spyware Use**.
Section: 66C IT Act

A person edits someone's photo into obscene form and posts it online. What offence?

This is **Morphing and Publishing Obscene Content**.
Section: 67 IT Act

An attacker uses SQL injection to steal database records. What crime is this?

This is **Database Hacking**.
Section: 43 & 66 IT Act

A student creates a fake job website to steal applicants' details. What law applies?

This is **Online Fraud / Phishing**.
Section: 66D IT Act

Someone threatens to release private photos unless paid money. What crime?

This is **Cyber Extortion**.
Section: IT Act + IPC Extortion laws

A person posts defamatory false information about someone online. What offence?

This is **Online Defamation**.
Section: IPC 499 + IT Act support

A hacker accesses a system without permission but causes no damage. Is it still a crime?

Yes, **Unauthorized Access** itself is punishable.
Section: 43 & 66 IT Act

A criminal uses malware to mine cryptocurrency on victim's PC. What offence?

This is **Unauthorized Resource Usage**.
Section: 43 & 66 IT Act

Someone spreads fake news online causing public panic. What law applies?

This may fall under **Cyber Misuse & IPC public disorder laws**.

A person records video calls without consent and leaks them. What offence?

This is **Violation of Privacy**.
Section: 66E IT Act

A hacker modifies exam results in a university database. What crime?

This is **Data Manipulation and Hacking**.
Section: 43 & 66 IT Act

What is Criminal Law?

Criminal law deals with offences against society and prescribes punishment for illegal acts like murder, theft, fraud, etc.

What is Murder?

Murder is intentionally causing the death of another person.

Section: IPC 302
Punishment: Death penalty or life imprisonment + fine

What is Culpable Homicide?

Causing death without intention to commit murder but with knowledge that it may cause death.

Section: IPC 299 / 304
Punishment: Life imprisonment or up to 10 years + fine

What is Theft?

Taking someone's property dishonestly without their consent.

Section: IPC 378
Punishment: Up to 3 years imprisonment or fine or both

What is Robbery?

Theft involving force, threat, or violence.

Section: IPC 390
Punishment: Up to 10 years + fine

What is Dacoity?

Robbery committed by 5 or more persons.

Section: IPC 391
Punishment: Life imprisonment or up to 10 years + fine

What is Cheating?

Deceiving someone to gain money or property.

Section: IPC 415 / 420
Punishment: Up to 7 years + fine

What is Criminal Breach of Trust?

Misusing property entrusted to someone.

Section: IPC 405
Punishment: Up to 3 years or fine or both

What is Assault?

Attempt or threat to use force against someone.

Section: IPC 351
Punishment: Up to 3 months or fine

What is Hurt?

Causing physical pain or injury.

Section: IPC 319
Punishment: Up to 1 year or fine

What is Grievous Hurt?

Serious injury like fracture, loss of limb, etc.

Section: IPC 320
Punishment: Up to 7 years + fine

What is Kidnapping?

Taking a person away without consent.

Section: IPC 359
Punishment: Up to 7 years + fine

What is Abduction?

Forcibly taking someone away using force or deceit.

Section: IPC 362

What is Rape?

Non-consensual sexual intercourse.

Section: IPC 375
Punishment: 10 years to life imprisonment

What is Sexual Harassment?

Unwanted sexual behavior or advances.

Section: IPC 354A
Punishment: Up to 3 years

What is Stalking?

Following or contacting someone repeatedly against their will.

Section: IPC 354D
Punishment: Up to 3 years (first offence)

What is Defamation?

Harming someone's reputation by false statements.

Section: IPC 499
Punishment: Up to 2 years or fine

What is Criminal Intimidation?

Threatening someone to cause fear.

Section: IPC 503
Punishment: Up to 2 years

What is Trespass?

Entering someone's property without permission.

Section: IPC 441
Punishment: Up to 3 months

What is Forgery?

Making fake documents to cheat.

Section: IPC 463
Punishment: Up to 2 years or more

What is Extortion?

Threatening someone to obtain money or property.

Section: IPC 383
Punishment: Up to 3 years

What is Public Nuisance?

Causing inconvenience or danger to the public.

Section: IPC 268

SCENARIO-BASED QUESTIONS (VERY IMPORTANT)

Someone kills a person intentionally.

Crime: Murder
Section: IPC 302
Punishment: Death or life imprisonment

A person steals a bike from parking.

Crime: Theft
Section: IPC 378

Five people rob a bank together.

Crime: Dacoity
Section: IPC 391

A person threatens to kill someone if money is not paid.

Crime: Extortion + Criminal Intimidation
Section: IPC 383 + 503

Someone makes fake documents for a job.

Crime: Forgery
Section: IPC 463

A person slaps someone during an argument.

Crime: Assault / Hurt
Section: IPC 351 / 319

A man follows a woman repeatedly and sends messages.

Crime: Stalking
Section: IPC 354D

Someone spreads false rumors damaging reputation.

Crime: Defamation
Section: IPC 499

A person forcefully takes a child away.

Crime: Kidnapping
Section: IPC 359

A person enters a house without permission.

Crime: Trespass
Section: IPC 441

Someone cheats people in a business deal.

Crime: Cheating
Section: IPC 420

A person misuses company money given for work.

Crime: Criminal Breach of Trust
Section: IPC 405

A person threatens to leak private info unless paid.

Crime: Extortion
Section: IPC 383

A person causes serious injury (fracture).

Crime: Grievous Hurt
Section: IPC 320

What is Criminal Law?

Criminal law deals with offences against society and provides punishment for illegal acts like murder, theft, fraud, etc.

What is Murder?

Murder is intentionally causing the death of another person.

Section: BNS 103
Punishment: Death penalty or life imprisonment + fine

What is Culpable Homicide?

Causing death with knowledge but without intention of murder.

Section: BNS 100 / 101
Punishment: Life imprisonment or up to 10 years + fine

What is Theft?

Taking someone's property dishonestly without consent.

Section: BNS 303
Punishment: Up to 3 years or fine or both

What is Robbery?

Theft involving force or threat.

Section: BNS 309
Punishment: Up to 10 years + fine

What is Dacoity?

Robbery committed by 5 or more persons.

Section: BNS 310
Punishment: Life imprisonment or up to 10 years + fine

What is Cheating?

Deceiving someone for wrongful gain.

Section: BNS 318
Punishment: Up to 7 years + fine

What is Criminal Breach of Trust?

Misuse of entrusted property.

Section: BNS 316
Punishment: Up to 5 years + fine

What is Assault?

Threat or attempt to use force.

Section: BNS 129
Punishment: Imprisonment or fine

What is Hurt?

Causing bodily pain or injury.

Section: BNS 115
Punishment: Up to 1 year or fine

What is Grievous Hurt?

Serious injury like fracture, loss of limb.

Section: BNS 117
Punishment: Up to 7 years + fine

What is Kidnapping?

Taking a person without consent.

Section: BNS 137
Punishment: Up to 7 years + fine

What is Abduction?

Taking someone by force or deceit.

Section: BNS 138

What is Rape?

Non-consensual sexual act.

Section: BNS 63
Punishment: 10 years to life imprisonment

What is Sexual Harassment?

Unwanted sexual behavior.

Section: BNS 74
Punishment: Up to 3 years

What is Stalking?

Following or contacting repeatedly.

Section: BNS 78
Punishment: Up to 3 years

What is Defamation?

Harming reputation through false statements.

Section: BNS 356
Punishment: Up to 2 years or fine

What is Criminal Intimidation?

Threatening someone to create fear.

Section: BNS 351
Punishment: Up to 2 years

What is Trespass?

Entering property without permission.

Section: BNS 329
Punishment: Up to 3 months

What is Forgery?

Making fake documents.

Section: BNS 335
Punishment: Up to 2 years or more

What is Extortion?

Threatening to obtain money.

Section: BNS 308
Punishment: Up to 3 years

What is Public Nuisance?

Causing inconvenience to public.

Section: BNS 270

SCENARIO-BASED QUESTIONS (BNS)

Someone kills a person intentionally

Crime: Murder
Section: BNS 103
Punishment: Death or life imprisonment

A person steals a bike

Crime: Theft
Section: BNS 303

Five people rob a bank

Crime: Dacoity
Section: BNS 310

Threatening for money

Crime: Extortion
Section: BNS 308

Fake documents for job

Crime: Forgery
Section: BNS 335

Slapping someone

Crime: Hurt / Assault
Section: BNS 115 / 129

Following a woman repeatedly

Crime: Stalking
Section: BNS 78

Spreading false rumors

Crime: Defamation
Section: BNS 356

Taking a child forcefully

Crime: Kidnapping
Section: BNS 137

Entering house without permission

Crime: Trespass
Section: BNS 329

Cheating in business

Crime: Cheating
Section: BNS 318

Misusing company money

Crime: Criminal Breach of Trust
Section: BNS 316

Serious injury (fracture)

Crime: Grievous Hurt
Section: BNS 117

What is BNS?

Bharatiya Nyaya Sanhita (2023) is India's **new criminal law** that replaced the old **IPC (Indian Penal Code, 1860)**.

It defines:

- Crimes (offences)
- Punishments
- Legal responsibilities

TYPES OF PUNISHMENT

Section 4 – Punishments under BNS

BNS provides 5 types of punishments:

1. **Death Penalty** → For very serious crimes (e.g., murder, terrorism)
2. **Life Imprisonment** → Jail for whole life
3. **Imprisonment** → Simple or rigorous
4. **Fine** → Monetary penalty
5. **Community Service** → New concept in BNS

Why is attempt to murder considered a serious offense even if the victim survives?
Because it demonstrates clear intention to kill, punishable under BNS Section 109.

A person shoots someone but the victim survives. What crime is committed?
Attempt to murder under BNS Section 109.

Why is murder punished more severely than attempt to murder?
Because murder results in loss of life, punishable under BNS Section 103.

If a person attacks someone with a knife but causes minor injuries, is it attempt to murder?
It depends on intent; if intention to kill is proven, it falls under BNS Section 109.

Why is intention important in criminal law?
Because liability depends on the mental state under BNS principles.

A person plans a murder but fails to execute it. What is the offense?
Attempt to commit murder under BNS Section 109 or preparation depending on facts.

Why is cheating considered a serious offense?
Because it involves intentional deception for gain under BNS Section 318.

If someone takes property without permission, what crime is it?
Theft under BNS Section 303.

A person threatens another with harm unless paid money. What crime is this?
Extortion under BNS Section 308.

Why is kidnapping considered a grave offense?
Because it violates personal liberty under BNS Section 137.

Can negligence lead to criminal liability?
Yes, causing death by negligence is punishable under BNS Section 106.

Why is causing death by negligence treated differently from murder?
Because there is no intention to kill under BNS.

If a person lies in a contract for money, what offense is it?
Cheating under BNS Section 318.

Why is evidence important in criminal cases?
Because guilt must be proven beyond reasonable doubt.

What happens if intent cannot be proven in a murder case?
The offense may be reduced to culpable homicide under BNS Section 105.

A hacker accesses a bank system without permission. What offense is this?
Hacking under IT Act Section 66.

Why is unauthorized access a crime?
Because it violates data privacy and system security.

A person creates a fake website to steal passwords. What crime is this?
Cheating by impersonation under IT Act Section 66D.

Why is identity theft dangerous?
Because it allows misuse of personal data under IT Act Section 66C.

If someone uses another person's Aadhaar details, what offense is it?
Identity theft under IT Act Section 66C.

Why are cyber crimes increasing?
Due to increased internet usage and weak security awareness.

Why is data protection important?
To prevent misuse of personal information.

What happens if a company leaks user data?
Liability under IT Act Section 43A.

Why is cyber fraud hard to trace?
Because criminals use anonymity and cross-border systems.

A person sends threatening emails. What crime is this?
Cyber intimidation and harassment (covered under general laws + IT provisions).

Why is digital evidence important in cyber crimes?
It helps establish proof in court under evidence laws.

If someone deletes company data intentionally, what offense is it?
Data damage under IT Act Section 43.

Why is online fraud serious?
It affects multiple victims quickly.

A person impersonates a bank officer online. What crime is it?
Cheating under IT Act Section 66D and BNS Section 318.

Why is cyber stalking harmful?
It violates privacy and safety.

Why is intent harder to prove in cyber crimes?
Because actions are indirect and digital.

If a person unknowingly downloads pirated software, is it a crime?
It depends on intent and knowledge.

Why is encryption important?
It protects sensitive data.

A person spreads fake news causing panic. What offense is it?
Public mischief under BNS provisions.

Why is law important in digital platforms?
To regulate user behavior.

If someone shares private photos without consent, what crime is it?
Privacy violation under IT Act Section 66E.

Why is consent important?
Because absence of consent makes acts unlawful.

A person manipulates digital records. What crime is it?
Tampering under IT Act Section 65.

Why is cybersecurity important for banks?
To protect financial data.

Why are strict punishments necessary in cyber law?
To deter digital crimes.

Why is hacking unethical even without damage?
Because it violates privacy.

If a person creates malware, what crime is it?
Cyber offense under IT Act Section 66.

Why is digital identity important?
It represents personal and financial identity online.

Why is attempt crime punishable?
Because intention to commit crime is present.

Why is cyber law evolving?
Due to rapid technological changes.

If someone hacks social media accounts, what crime is it?
Unauthorized access under IT Act Section 66.

Why is awareness the best defense against cyber crime?
Because users can avoid traps.

Why is law stricter for financial fraud?
Because it affects economic stability.

Why is impersonation dangerous online?
It can lead to fraud.

If someone steals OTP, what crime is it?
Cyber fraud.

Why is strong password important?
To prevent hacking.

Why is law necessary in AI and technology?
To regulate misuse and ensure safety.

Why is copyright important for creators?
It ensures creators get recognition and control over their work.

What types of works are protected under copyright?
Books, music, videos, software, and artistic works are protected.

Why is copying content without permission illegal?
Because it violates the creator's exclusive rights.

Does copyright protect ideas?
No, it protects only the expression of ideas.

A person uploads a movie online without permission. What is this called?
This is called copyright infringement.

If someone copies code from GitHub and claims it as their own, what is the offense?
It is copyright violation and plagiarism.

A student copies an article and submits it as their own work. What is this?
This is plagiarism and copyright infringement.

If a person downloads pirated software, is it legal?
No, it is illegal under copyright law.

A website uses images without permission. What issue arises?
It leads to copyright infringement.

Why is copyright infringement harmful to creators?
It causes financial loss and loss of control over work.

Can sharing copyrighted content ever be legal?
Yes, under fair use or with proper permission.

What is fair use?
It is limited use of copyrighted content for education, research, or criticism.

Why is attribution not always enough?
Because permission may still be required.

What happens if someone violates copyright laws?
They may face legal action, fines, or content removal.

Why is copyright enforcement difficult online?
Because content spreads easily across the internet.

What is digital piracy?
It is illegal copying and sharing of digital content.

Why are torrents often illegal?
Because they distribute copyrighted material without permission.

A person streams pirated movies online. Is it legal?
No, it is a copyright violation.

What is DRM?
It is technology used to protect digital content.

If a company uses music in ads without permission, what happens?
They may face copyright infringement claims.

Why do companies buy licenses for content?
To legally use copyrighted material.

If someone modifies a copyrighted image, is it legal?
It may still be illegal without permission.

What is derivative work?
It is a new work based on an existing copyrighted work.

Why is copyright automatic?
Because protection begins as soon as the work is created.

Why is copyright important in software?
It protects code from unauthorized copying.

Is open-source software always free to use?
No, it depends on license conditions.

What is Creative Commons license?
It allows limited use of content with conditions.

Why is piracy common?
Due to cost and lack of awareness.

Can memes violate copyright?
Yes, if they use copyrighted content without permission.

If someone reposts a video without credit, is it illegal?
It may violate copyright depending on usage.

Why do platforms remove copyrighted content?
To comply with copyright laws.

What is a copyright strike?
It is a penalty for uploading copyrighted content.

Can background music cause copyright issues?
Yes, if it is copyrighted.

Why do creators use watermarks?
To protect ownership of their content.

What is public domain?
Content that is free to use without restrictions.

When does copyright expire?
After a certain period defined by law.

Can copyright be transferred?
Yes, through legal agreements.

What is licensing?
It is permission to use copyrighted content legally.

Why do companies protect copyrights?
To secure ownership and value.

Why is piracy illegal?
Because it violates creator rights.

What is content theft?
Unauthorized use of someone's work.

Why is original content valuable?
Because it ensures authenticity and ownership.

If someone edits and uploads a movie clip, is it legal?
It depends on fair use rules.

Why is permission important in copyright?
Because it ensures legal use of content.

What is an infringement notice?
A legal warning for copyright violation.

Why do companies monitor content usage?
To prevent unauthorized use.

Can educational use avoid copyright issues?
Sometimes under fair use.

Why is copyright global?
Because content is shared worldwide.

What is plagiarism vs copyright violation?
Plagiarism is ethical misconduct, copyright violation is a legal offense.

Why is attribution important?
To give credit to the original creator.

What happens if copyright is ignored?
It can lead to legal penalties.

Why is streaming piracy harmful?
It reduces income for creators.

What is illegal downloading?
Downloading content without permission.

Why do artists suffer from piracy?
Because it reduces their earnings.

Can screenshots violate copyright?
Yes, depending on usage.

Why is copyright awareness necessary?
To avoid legal issues.

What is fair dealing in India?
Limited legal use under copyright law.

Why do apps restrict downloads?
To protect copyrighted content.

Why is copyright important in the digital age?
To protect creators in an easily shareable environment.

A person clones a SIM card and uses it for fraud. What offense is this?
It is identity theft and fraud under IT Act Section 66C and cheating provisions under BNS.

Someone gains access to a company database and sells customer data. What crime is committed?
This is data theft and unauthorized access under IT Act Section 66 and Section 43.

A person sends fake job emails and collects money from victims. What offense is this?
This is cyber fraud and cheating by impersonation under IT Act Section 66D.

A hacker installs spyware on a user's laptop without consent. What crime is this?
It is unauthorized surveillance and data theft under IT Act provisions.

A person creates fake social media profiles to defame someone. What offense is committed?
It is cyber defamation under BNS defamation provisions and IT laws.

Someone records private video calls without consent and shares them. What crime is this?
It is a violation of privacy under IT Act Section 66E.

A person spreads false information online causing panic in society. What offense is this?
It may amount to public mischief under BNS provisions and cyber law violations.

A bank employee leaks customer passwords intentionally. What crime is committed?
It is breach of trust and data theft under IT Act and BNS provisions.

A person modifies digital evidence to escape punishment. What offense is this?
It is tampering with evidence and digital record manipulation.

Someone hacks an online exam system to change marks. What crime is this?
It is hacking and data manipulation under IT Act Section 66.

A person creates a fake e-commerce site to scam users. What offense is this?
It is cyber fraud and impersonation under IT Act Section 66D.

A user downloads and distributes cracked paid software. What crime is this?
It is copyright violation and digital piracy.

A person sends OTP phishing messages to steal bank details. What offense is this?
It is phishing and cyber fraud under IT Act Section 66D.

Someone uses deepfake technology to create fake videos of a person. What crime is this?
It may amount to defamation, identity misuse, and cyber offense.

A person gains access to someone's email and deletes important data. What crime is this?
